TRADEWEB REPORTS SECOND QUARTER 2020 FINANCIAL RESULTS

New York, July 30, 2020 – Tradeweb Markets Inc. (Nasdaq: TW), a leading, global operator of electronic marketplaces for rates, credit, equities and money markets, today reported financial results for the quarter ended June 30, 2020.

\$778.4 billion in average daily volume (“ADV”), an increase of **3.5%** year over year. Quarterly records for ADV in U.S. High-Grade Credit, U.S. High-Yield Credit, Bilateral Repos, U.S. Treasury Bills and Emerging Markets Interest Rate Swaps

\$212.1 million quarterly gross revenues increased **11.4%** (**11.8%** on a constant currency basis) year over year

\$42.4 million net income and **\$70.4 million** adjusted net income, increases of **70.9%** and **24.3%** respectively from the prior year period

47.8% adjusted EBITDA margin or **\$101.3 million** adjusted EBITDA for the quarter compared to 45.6% or \$86.9 million respectively for the prior year period

\$0.16 diluted earnings per share (“Diluted EPS”) and **\$0.30** adjusted diluted earnings per share

\$0.08 per share quarterly cash dividend declared

Lee Olesky, CEO of Tradeweb Markets:

“Financial markets are becoming more electronic and Tradeweb’s strong performance in the second quarter demonstrated the benefits of our broad, diversified approach across asset classes, trading protocols, liquidity sources and geographies. Our clients are adapting to remote work and leveraging electronic trading and digital workflows across our platforms. Yet, we continue to develop new functionality that expands and deepens our connections to their businesses. One great example of this is our portfolio trading protocol for corporate bonds, which in June surpassed \$100 billion in cumulative trading volume just 18 months after its launch.”

DISCUSSION OF RESULTS

Rates – Revenues from rates of \$112.8 million in the second quarter of 2020 increased 5.4% compared to the second quarter of 2019 (5.9% on a constant currency basis). ADV in rates of \$506.7 billion for the second quarter of 2020 decreased 0.6% compared with the second quarter of 2019 due to short-tenor interest rate swaps (low fees per million) decreasing 30% in volume. The decrease was offset by increased trading activity in U.S. Treasuries and European Government bonds increasing by 14.4% and 18.4% respectively compared with the second quarter of 2019. Quarterly ADV records were set in Emerging Markets Interest Rate Swaps and U.S. Treasury Bills.

Credit – Revenues from credit of \$49.1 million in the second quarter of 2020 increased 24.0% compared to the second quarter of 2019 (24.6% on a constant currency basis). ADV in credit of \$17.9 billion for the second quarter of 2020 increased 46.5%, driven primarily by trading in credit default swaps and record volume in U.S. high-grade and U.S. high-yield credit.

Equities – Revenues from equities of \$15.4 million in the second quarter of 2020 increased 38.6% compared to the second quarter of 2019 (39.3% on a constant currency basis). ADV in equities of \$10.0 billion for the second quarter of 2020 increased 40.4% due mainly to increased trading activity in U.S. and European ETFs.

Money Markets – Revenues from money markets of \$10.5 million in the second quarter of 2020 increased 2.1% compared to the second quarter of 2019 (2.3% on a constant currency basis). ADV in money markets of \$243.7 billion for the second quarter of 2020 rose 9.3% due to record volume in bilateral repurchase agreements.

Market Data – Revenues from market data of \$18.5 million in the second quarter of 2020 increased 5.4% compared to the second quarter of 2019 (6.0% on a constant currency basis) due to delivery of additional data under our market data license agreements with Refinitiv.

Other – Revenues from other of \$5.7 million in the second quarter of 2020 increased 18.5% compared to the second quarter of 2019 (18.5% on a constant currency basis).

Operating Expenses – Operating expenses of \$156.5 million in the second quarter of 2020 decreased 1.9% compared to the second quarter of 2019 due to a decrease in non-cash stock-based compensation expense related to options, specifically related to the Special Option Award. In April 2019, we recognized \$18.9 million as compensation expense related to these options immediately upon the completion of the IPO. Adjusted Expenses were \$121.6 million in the second quarter of 2020, an increase of 6.9% from the prior year period primarily due to increased employee compensation and benefits expenses associated with incentive compensation and higher headcount, as well as higher technology and communications expense, partially offset by lower general and administrative expense. Please see "Non-GAAP Financial Measures" below for additional information.

CAPITAL MANAGEMENT

- \$559.9 million in cash and cash equivalents and a fully undrawn \$500 million credit facility at June 30, 2020.

- The Board of Directors of Tradeweb Markets Inc. declared a quarterly cash dividend of \$0.08 per share of Class A common stock and Class B common stock. The dividend will be payable on September 15, 2020 to stockholders of record as of September 1, 2020.

OTHER MATTERS

Updated Full-Year 2020 Guidance*

- Adjusted Expenses: \$495 - \$505 million
 - Includes ~\$5 million of technology & communications investments (data strategy and cybersecurity)
 - Includes ~\$7 - \$8 million of G&A in Q3 and Q4 excluding the impact of FX
 - Duplicative occupancy (rent) delayed to 2021
- Acquisition and Refinitiv Transaction related depreciation and amortization expense: \$110 million
- Assumed non-GAAP tax rate: 22.0%
- Capital expenditures and capitalization of software: \$45 - \$50 million

**GAAP operating expenses and tax rate guidance are not provided due to the inherent difficulty in quantifying certain amounts due to a variety of factors including the unpredictability in the movement of foreign currency rates.*

FORWARD-LOOKING STATEMENTS

This release contains forward-looking statements within the meaning of the federal securities laws. Statements related to, among other things, our guidance, including full-year 2020 guidance, and future performance, the industry and markets in which we operate, our expectations, beliefs, plans, strategies, objectives, prospects and assumptions and future events are forward-looking statements. In addition, statements herein relating to the COVID-19 pandemic, the potential impacts of which remain inherently uncertain, are forward-looking statements.

We have based these forward-looking statements on our current expectations, assumptions, estimates and projections. While we believe these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve known and unknown risks and uncertainties, many of which are beyond our control. These and other important factors, including those discussed under the heading “Risk Factors” in documents of Tradeweb Markets Inc. on file with or furnished to the SEC, may cause our actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements. Given these risks and uncertainties, you are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements contained in this release are not guarantees of future performance and our actual results of operations, financial condition or liquidity, and the development of the industry and markets in which we operate, may differ materially from the forward-looking statements contained in this release. In addition, even if our results of operations, financial condition, or liquidity, and events in the industry and markets in which we operate, are consistent with the forward-looking statements contained in this release, they may not be predictive of results or developments in future periods. Any forward-looking statement that we make in this release speaks only as of the date of such statement. Except as required by law, we do not undertake any obligation to update or revise, or to publicly announce any update or revision to, any of the forward-looking statements, whether as a result of new information, future events or otherwise, after the date of this release.

PRESENTATION

The historical financial information and other disclosures contained in this press release relate to periods that ended both prior to and after the completion of the Reorganization Transactions and the IPO of Tradeweb Markets Inc. (unless the context otherwise requires, together with its subsidiaries, referred to as “we,” “our,” “Tradeweb,” “Tradeweb Markets” or the “Company”). The IPO closed on April 8, 2019. As a result of certain reorganization transactions (the “Reorganization Transactions”) completed in connection with the IPO, on April 4, 2019, Tradeweb Markets Inc. became a holding company whose only material assets consist of its equity interest in Tradeweb Markets LLC (“TWM LLC”) and related deferred tax assets. As the sole manager of TWM LLC, Tradeweb Markets Inc. operates and controls all of the business and affairs of TWM LLC and, through TWM LLC and its subsidiaries, conducts its business. As a result of this control, and because Tradeweb Markets Inc. has a substantial financial interest in TWM LLC, Tradeweb Markets Inc. consolidates the financial results of TWM LLC and its subsidiaries. The historical financial information contained in this press release relating to periods prior to and including March 31, 2019, which we refer to as the “pre-IPO period,” pertain to TWM LLC, the predecessor of Tradeweb Markets Inc. for financial reporting purposes. The historical financial information contained in this press release relating to periods beginning on April 1, 2019, and through and including June 30, 2020, which we refer to as the “post-IPO period,” pertain to Tradeweb Markets Inc. The pre-IPO period excludes, and the post-IPO period includes, our financial results from April 1, 2019 through April 3, 2019, which are not material.

On October 1, 2018, Refinitiv Holdings Ltd. (“Refinitiv”), which is controlled by certain investment funds affiliated with The Blackstone Group L.P., an affiliate of Canada Pension Plan Investment Board, an affiliate of GIC Special Investments Pte. Ltd. and certain co-investors, indirectly acquired substantially all of the financial and risk business of Thomson Reuters Corporation and Thomson Reuters Corporation indirectly acquired a non-controlling ownership interest in Refinitiv (collectively, the “Refinitiv Transaction”). As a result of the Refinitiv Transaction, as a consolidating subsidiary of Refinitiv, we accounted for the Refinitiv Transaction using pushdown accounting. Due to the change in the basis of accounting resulting from the application of pushdown accounting, the financial information for the period beginning on October 1, 2018, and through and including June 30, 2020, or the “successor period,” and the financial information for the periods prior to, and including, September 30, 2018, or the “predecessor period,” are not comparable. However, the change in basis resulting from the Refinitiv Transaction did not impact certain financial information, specifically revenues and certain expenses.

NON-GAAP FINANCIAL MEASURES

This release contains “non-GAAP financial measures,” including Adjusted EBITDA, Adjusted EBITDA margin, Adjusted EBIT, Adjusted EBIT margin, Adjusted Net Income, Adjusted Diluted EPS, Adjusted Expenses and Free Cash Flow, which are supplemental financial measures that are not calculated or presented in accordance with GAAP. We make use of non-GAAP financial measures in evaluating our past results and future prospects. We present these non-GAAP financial measures because we believe they assist investors and analysts in comparing our operating performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance.

Management and our board of directors use Adjusted EBITDA, Adjusted EBITDA margin, Adjusted EBIT and Adjusted EBIT margin to assess our financial performance and believe they are helpful in highlighting trends in our core operating performance, while other measures can differ significantly depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which we operate and capital investments. Further, our executive incentive compensation is based in part on components of Adjusted EBITDA.

We use Adjusted Net Income and Adjusted Diluted EPS as supplemental metrics to evaluate our business performance in a way that also considers our ability to generate profit without the impact of certain items. Each of the normal recurring adjustments and other adjustments included in Adjusted Net Income and Adjusted Diluted EPS help to provide management with a measure of our operating performance over time by removing items that are not related to day-to-day operations or are non-cash expenses.

We use Adjusted Expenses as a supplemental metric to evaluate our underlying operating performance over time by removing items that are not related to day-to-day operations or are non-cash expenses.

We use Free Cash Flow to assess our liquidity in a way that considers the amount of cash generated from our core operations after expenditures for capitalized software development costs and furniture, equipment and leasehold improvements.

See the attached schedules for reconciliations of the non-GAAP financial measures contained in this release to their most comparable GAAP financial measure. Non-GAAP financial measures have limitations as analytical tools, and you should not consider these non-GAAP financial measures in isolation or as alternatives to net income attributable to Tradeweb Markets Inc., net income, earnings per share, operating income, operating expenses or cash flow from operating activities or any other financial measure derived in accordance with GAAP. You are encouraged to evaluate each adjustment included in the reconciliations. In addition, in evaluating Adjusted EBITDA, Adjusted EBITDA margin, Adjusted EBIT, Adjusted EBIT margin, Adjusted Net Income, Adjusted Diluted EPS, Adjusted Expenses and Free Cash Flow, you should be aware that in the future, we may incur expenses similar to the adjustments in the presentation of these non-GAAP financial measures. Our presentation of non-GAAP financial measures should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. In addition, the non-GAAP financial measures contained in this release may not be comparable to similarly titled measures used by other companies in our industry or across different industries.

We present certain growth information on a “constant currency” basis. Since our consolidated financial statements are presented in U.S. dollars, we must translate non-U.S. dollar revenues and expenses into U.S. dollars. Constant currency growth, which is a non-GAAP financial measure, is defined as growth excluding the effects of foreign currency fluctuations. Constant currency information is calculated by translating the current period and prior period’s results using the average exchange rates for the prior period. We use constant currency growth as a supplemental metric to evaluate our underlying performance between periods by removing the impact of foreign currency fluctuations. We present certain constant currency growth information because we believe it provides investors and analysts a useful comparison of our results and trends between periods. This information should be considered in addition to, not as a substitute for, results reported in accordance with GAAP, and may not be comparable to similarly titled measures used by other companies.
